

RI TRANSPARENCY REPORT

2019

123 Investment Managers (123 IM)

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the reporting period specified above. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information.

PRI disclaimer

This document presents information reported directly by signatories. This information has not been audited by the PRI Secretariat or any other party acting on their behalf. While this information is believed to be reliable, no representations or warranties are made as to the accuracy of the information presented, and no responsibility or liability can be accepted for any error or omission.

Usage restrictions

Public Transparency Reports are the intellectual property of PRI. In no case, can this report or any content of it be sold to other parties.

Third party organisations who have accessed Transparency reports outside of the Data Portal and intend to use those require the prior written consent of PRI (other than for internal use or research or for the sole benefit of the organisation whose report this refers to).

Created in 2001 with the goal of financing entrepreneurs and democratising the access to private equity, 123 Investment Managers (123 IM) has enjoyed a steady growth to reach 1,1 billion € AuM as of end 2018 and to become one of the leading providers of savings products for individual private investors in unlisted French SMEs.

A multi-specialist, 123 IM has, over the past 18 years, invested 2billion € in 400 companies spanning the following sectors: tourism, healthcare and aged-care, real estate, renewable energy and private higher education. Close to the entrepreneurs it finances and well-known for its leadership on the SME segment, 123 IM enjoys a very high repeat business as nearly 70% of deals comes from sources - deal brokers, entrepreneurs and funds - with whom 123 IM's teams have already worked.

Since its creation, 123 IM has enabled French individual savers to invest in the real economy through a diversified range of solutions tailored to their needs that includes AMF(French Markets Authority)-approved funds, fund of funds and club deals. With 70 000 clients,1 200 distributors and a growing base of institutional investors, 123 IM ambitions to bridge the gap between dynamic SMEs in need of financing and long term investors.

SG 01.3 Indicate if the investment policy covers any of the following

- Your organisation’s definition of ESG and/or responsible investment and it’s relation to investments
- Your investment objectives that take ESG factors/real economy influence into account
- Time horizon of your investment
- Governance structure of organisational ESG responsibilities
- ESG incorporation approaches
- Active ownership approaches
- Reporting
- Climate change
- Understanding and incorporating client / beneficiary sustainability preferences
- Other RI considerations, specify (1)
- Other RI considerations, specify (2)

SG 01.4 Describe your organisation’s investment principles and overall investment strategy, interpretation of fiduciary (or equivalent) duties, and how they consider ESG factors and real economy impact.

We believe that 123 IM’s investment principles are “ESG compliant” as:

1/ Over the years, 123 IM has financed more than 350 small unquoted businesses (companies whose value is below 30million€), a segment that attracts fewer funds than mid and large caps, yet is essential to the growth of the French economy and to job creation. We strive to have a tiny but real social impact on the economy.

2/ We are a pioneer in the democratisation of private equity in France as we enable small investors to invest sums starting from 1000€ in private equity funds and club deals that are normally reserved for institutional investors. Although this entails risk-taking, it also brings these investors a rare choice of asset class to diversify their portfolios and invest long term.

3/ Finally, 123 IM invests in sectors that have a social or environmental utility such as pharmacies, medical laboratories, nurseries, healthcare and aged-care, ecological hospitality, renewable energy and higher education. These investments usually lead to job creation, often in areas of France lacking in such opportunities.

These investment principles have shaped our integration of ESG and our processes as explained in other parts of this reporting.

SG 01.5 Provide a brief description of the key elements, any variations or exceptions to your investment policy that covers your responsible investment approach. [Optional]

The first element of our investment policy is our exclusion policy : we refuse to invest in arms, tobacco, pornography and gambling for ethical reasons. We also exclude mining and the charcoal industry for environmental reasons.

Once this screening has been passed, the second element is the integration of extra-financial assessments in each of our investment activities. More precisely and in accordance with the commitments made at the signing of the UNPRI:

- We take ESG issues into account in our investment analysis and decision-making processes and we expect the cooperation of the company’s management during this phase
- We are an active investor who integrates ESG issues into its shareholder practice and we want the management of the companies in which we invest to also act to integrate ESG criteria and goals in their activity
- We commit ourselves to accompany the company’s management in the definition and implementation of ESG action plans
- We ask the management of the companies in which we invest to publish appropriate information on their ESG issues and progress on an annual basis
- We will organise a meeting at least once a year to discuss the points from the extra-financial reports so as to encourage the achievement of ESG objectives

Our goal is to help, through our analysis and support, the companies in which we invest to progress during the holding period in their consideration of ESG issues.

It includes:</p>			
<p>1/ establishing a policy on managing potential conflicts of interest in the investment process</p>			
<p>2/ detecting situations in which conflicts of interest might occur</p>			
<p>3/ keeping a ledger of conflicts that 123 IM staff and teams have encountered</p>

SG 07.2 For the roles for which you have RI oversight/accountability or implementation responsibilities, indicate how you execute these responsibilities.

Our goal in 2018 was to overhaul 123 IM's existing RI policy to implement one that had more breadth, depth and structure. One of the reinforced RI policy's achievements has been to involve all levels of the company:

- ESG issues and progress have been addressed in one of the Supervisory's Board meeting by 123 IM's CEO
- ESG issues and progress have been addressed in more than 5 of the Executive Committee's meetings
- Marketing has included RI clauses in the new fund's prospectus and has managed the Finansol Label renewal for our range of FIP Solidaire MAIF (impact investing funds that also uses ESG filters to screen investments)
- The investment team has followed a RI process that starts with exclusion filters, includes RI engagements in the Shareholder's Agreement and implements yearly reviews of ESG action plans with each new investment's managing team
- Our Chief Compliance Officer checks that the RI process has been carried out correctly before clearing an investment
- The head of ESG has created the processes, helped implement them and monitors their application with a goal to ensure the process is robust and delivers results, i.e. that it helps identify risks and opportunities for value creation in the investment process

SG 07.3 Indicate the number of dedicated responsible investment staff your organisation has.

1

SG 07.4 Additional information. [Optional]

A Head of ESG joined in February 2018 to help 123 IM implement a robust and comprehensive ESG policy (and CSR policy for 123 IM). However, as we feel that it is everyone's responsibility to apply ESG rules, the "number of staff dedicated to RI = 1" does not reflect the reality : in fact there are more than 30 investment specialists - ranging from partners to interns that are responsible for including ESG in their activity.

This is not relevant considering our activity : as we invest exclusively in SMEs and property developments - and use ESG factors as a tool at the company/project level only - we don't really have a strategic asset allocation approach. <p>(Translation from our latest fund prospectus)</p> <p>Signatory since 2016 of the Principles for Responsible Investment of the United Nations (UN PRI), 123 IM is constantly strengthening its process to take environmental, social, societal and good governance (ESG) issues into account in its investment strategy. Since 2018, 123 IM has embarked on a new and increasingly engaging phase with the development of its ESG Charter and the integration of the social, societal and environmental impacts as well as the governance strategy of the SMEs it finances.</p> <p>In this sense, all target companies in which the Fund invests will have to complete an ESG questionnaire, defined by 123 IM in an internal process, to estimate their social, societal and environmental impact and their governance strategy. This questionnaire will be declarative and will not result in additional audits of the control of the declared elements. Objectives will be set by the 123 IM investment team in collaboration with the management of the SME to encourage them to progress on these themes, without any promise to the investor in this area.</p>
